

Harshit Singh Negi

Madhya Pradesh , Sehore | +91 8126409501
harshit3976@gmail.com

Summary

Final year B.Tech CSE student at VIT Bhopal with hands-on experience building AI-powered desktop tools, full-stack web applications, and ML diagnostic systems. Contributed production features to FOSSEE/eSim at IIT Bombay, shipping a 2500+ line PyQt5 chatbot with local LLM inference, voice input, and schematic analysis. Seeking software engineering or ML engineering roles where I can build scalable, user-facing systems.

Education

VIT Bhopal University | Sehore , Madhya Pradesh

Bachelor of Technology in Computer Science and Engineering | 05/2027

- CGPA: 8.69 / 10, consistently ranking among top performers with strong academic performance across core subjects including Data Structures, Algorithms, Machine Learning, Operating Systems, and Computer Networks

WORK EXPERIENCE

FOSSEE eSim Internship | IIT Bombay | Remote

Intern | 02/2026 - Present

- Engineered a 2500+ line AI assistant in PyQt5 integrated into the eSim EDA tool, supporting text, voice, and schematic image analysis via local Ollama vision models.
- Shipped 8+ production features including session-persistent chat history, drag-and-drop multi-image uploads, NgSpice netlist log parser, smart token budgeting, and collapsible sidebar all merged into the FOSSEE/eSim open-source repository via feature-branch GitHub workflow.
- Reduced LLM response context overhead by 30% through smart token budgeting across multi-turn sessions.

1M1B (1 Million for 1 Billion) Internship | Bhopal

Internship Trainee | 08/2025 - 11/2025

- Analyzed 3+ climate-focused datasets using Python (pandas, matplotlib) to surface actionable insights for client-facing reports.
- Delivered 5+ structured presentations to stakeholders covering project outcomes, data trends, and recommendations.
- Maintained 100% on-time delivery across all assigned milestones over a 3-month engagement.

Project

1. MediDiagnose – AI Healthcare Diagnostic Platform

Tech: Python | Machine Learning | React.js | Tailwind | Context API

- Built an AI diagnostic platform with 4 modules (symptom analysis, medical imaging, heart health, cancer screening) achieving 88–92% classification accuracy across datasets.
- Engineered secure a diagnosis history dashboard, and offline-first state management via Context API and LocalStorage reducing API dependency by 60%.

GreenRoute – EcoFriendly Route Optimization App

Tech: MERN Stack | Mapbox API | OpenWeatherMap API

- Developed a full-stack MERN app recommending eco-friendly routes with real-time carbon emission savings calculated per trip.
- Engineered real-time GPS tracking using the browser Geolocation API users capture territory blocks by entering their physical boundaries.
- Implemented JWT-based auth and persistent trip/territory history, supporting full user session continuity across sessions.

FrameShift– Social Platform for Artists

Tech: React.js | Node.js | Express.js | MongoDB | REST APIs | Authentication

- Built a production-ready social platform for artists with dynamic content feeds, creator follow system, and design remixing handling 50+ concurrent test users.
- Optimized MongoDB queries and implemented pagination, cutting feed load time by ~40%.
- Designed and documented 15+ scalable REST API endpoints using Express.js with role-based access control.

Skills

Languages: Python, C++, JavaScript

Frameworks: React.js, Node.js, Express.js, Flask, FastAPI, PyQt5

Technologies: MERN Stack, REST APIs, Git, GitHub

AI / ML: LLM Integration, Computer Vision, Supervised Learning, Feature Engineering, Scikit-learn

CS Fundamentals: Data Structures & Algorithms, Operating Systems, Computer Networks

Cloud & DevOps: AWS, Docker, CI/CD, n8n

Certificates

- Google IT Support Professional Certificate - **Google** (2026)
- AWS Cloud Practitioner Essentials - **AWS**(2026)
- IBM Cloud Fundamentals – **IBM** (2025)
- Prompt Design in Vertex AI – **Google** (2025)
- The Bits and Bytes of Computer Networking – **Google** (2025)
- Microsoft Certified Systems Administrator: Machine Learning – **Microsoft** (2024)
- Career Essentials in Project Management – **Microsoft** (2024)
